

What I would do different

10 Things I Would Do Differently in Our Pastoral Care Ministry

- 1. I would pray more frequently *with* our clients and *for* our clients.**
- 2. I would get our clients memorizing and mediating on the Word earlier in the game.**
- 3. I would have made strategic alliances with capable Christ-following psychologists and medical doctors.**
- 4. I would refer clients to the *professionals* much sooner.**
- 5. I would use our Personal Confidential History more frequently.**
- 6. I would have prayerfully developed and used A Staff Manual as soon as possible.**
- 7. I would have ministered to fewer clients but would have ministered to them more frequently (i.e. *every week* when things were still inflamed).**
- 8. I would have become more educated in helping those with addictive behaviors.**
- 9. I would have tried to partner more closely with the leadership of Celebrate Recovery.**
- 10. I would have given more time to my own devotional life.**

The two things I believe I did right:

I used the Bible as my primary source of counsel

and

I hired all of you!
