

whydoweevermarry

Why would an intelligent human being ever want to marry?

The cold, hard facts of life under the curse of Genesis 3

Generally, a woman (*a diabolical manipulator*) desires to marry because she wants:

1. a great conversationalist who is interested in her
2. a close friend who will "like her" even if she gains weight
3. a courageous protector
4. a great provider
5. a tender, caring father for her children
6. to lose the social stigma of being single

Generally, a guy (*an insensitive clod*) is willing to marry because he wants:

1. a pretty and flirtatious sex partner who finds him attractive
2. a good cook
3. a compassionate nurse
4. a meticulous maid
5. a quiet and respectful companion who is interested in his hobbies

**Most men expect far less from marriage than do their wives.*

VIP The single greatest source of interpersonal conflict I have seen is *unmet expectations.*

1 Cor 13:13 NIV

And now these three remain: faith, hope and love. But the greatest of these is love.
