KEY QUOTES:

"A worldview is, first of all, an explanation and interpretation of the world and second, an application of this view to life. In simpler terms, our worldview is a view of the world and a view for the world." (William Brown and W. Gary Phillips)

"The term worldview refers to any ideology, philosophy, theology, movement, or religion that provides an overarching approach to understanding God and the world. Specifically, a worldview should contain a particular perspective regarding each of the following ten disciplines: theology, philosophy, ethics, biology, psychology, sociology, law, politics, economics, and history." (David Noebel)

"A worldview is a way one views the whole world. And since people have vastly different views of the world, depending on the perspective from which they view the world, it is clear that one's world view makes a world of difference. A world view is a way of viewing or interpreting all of reality. It is an interpretive framework through which or by which one makes sense out of the data of life and the world." (Norman Geisler and William D. Watkins)

"So what is a worldview? Essentially this: A world view is a set of presuppositions (assumptions which may be true, partially true or entirely false) which we hold (consciously or subconsciously, consistently or inconsistently) about the basic make-up of our world." (James Sire)

"A worldview is not the same thing as a formal philosophy; otherwise, it would be only for professional philosophers. Even ordinary people have a set of convictions about how reality functions and how they should live. Because we are made in God's image, we all seek to make sense of life. Some convictions are conscious, while others are unconscious, but together they form a more or less consistent picture of reality." (Nancy Pearcey)

*A WORLDVIEW is CRUCIAL! (Everybody has one) It is COMPREHENSIVE! (It includes everything). It is CONNECTED! (Everything is inter-related)
